Hardly Burned His Recovery Doubtful. Cause of the Fire a Mystery.

Press, Thursday Day, April, April 18.

At a few words after about eight o'clock on Tuesday night, a fatal fire, started in a tenement house, Church and Pinnacle streets, just a little west of the bridge, and occupied by William Arthur and his wife was discovered to be on foot.

Some children playing in a vacant lot near by were the first to notice the fire and immediately raised an alarm. At this time a fire engine, with a bucket of water, and a fireman, were seen on the street corner of Pinnacle and Dundas streets, con-

The Man Attempts Suicide.

STURTEVANT, April 24.—Word reached here this morning that a well-to-do farmer named Morrison, living about two miles from here, after descending three of his children in a barrel of rain water, was tempted to drown himself in a creek. The victim, a fine young man, was seen in this manner in a precarious condition. There are no hopes of his recovery. No reason was given for the deed.

WELL BEGUN!

Mr. Ostrom's Campaign Fairly Launched.

A STRONG ORGANIZATION EFFECTED.

If the old adage "well begun is half done," is correct, the campaign of half done is in that desirable state. Although the weather last night was highly disagreeable, the turnout of the people was so large as to overflow the place of meeting. It was, however, thoroughly representative in its character, including many of the "old birds," a large delegation of young men, a host of well-known work men and several reformers who will for the first time vote against the Mowat Government.

The feeling of the meeting was strong in support of the candidate, and the excellent speeches—particularly that of Mr. Corby, M. P., in which he indignantly repudiated the widely circulated falsehood that Mowat would not take an active part in the contest because of personal infirmities—were enthusiastically received. The speaker also alluded to the fact that Mowat was one of the last meetings for organization that the Conservative party have had here for years, and again went on to say that the success of the organization which was effected is a strong one. In Mr. N. J. Falkner we have an able and energetic Chairman, and in Mr. J. F. Wills a capable and active Secretary. The machinery of the campaign will not be allowed to stand still, and the organization is in the hands of able and experienced workers, and Mr. Ostrom is interested in the success of the campaign.

Major O. S. Tivell was chosen chairman. In his opening remarks, he said, he was pleased to see a large number of people present, and he hoped that the success of the campaign would be a great one. He said that the duty of the people to support him, and he would be glad to see them do so. He said that the duty of the people to support him, and he would be glad to see them do so.

Mr. Ostrom was then called upon, and was received with loud applause. He said that the people should keep a bottle of Dr. Lewis' Mowat Syrup, it pleases the child and destroys the worm.

"Many Mowats, many Mowats," but all men and all women are the people of Belleville. Dr. Lewis' Mowat Syrup is the best in the market. It is the best in the market. It is the best in the market.

NEWFOUNDLAND'S ANGER.

LONDON, May 25.—The Standard says that no one can be surprised at the strong feeling which exists in Newfoundland over the fisheries question. We fear that France is aware of the strong sentiment and is trading upon it. England has to pay money to offer compensation, preferably cash, for the surrender of French rights, and nothing but selfishness can prevent its acceptance; but it is certain that the French will not be satisfying the Canadians much more with us than a desire, however sincere, to appropriate a foreign and unaccommodating fishery.

Lord Knutsford, colonial secretary, has received an angry address to the Queen from the Newfoundland Legislature. The ad-

and smugglings, which it says the English Government appears to tolerate and

absolutely declines to consent to arbitration of the lobster dispute. The Legislative calls upon the Imperial Government to cause the removal of the lobsterers and to stop all fishing privileges until the bounties are abolished, threatening to take its own measures if the Government refuses.

THEY MAY FIGHT THE FRENCH.

ST. JOHN'S, Nfld., May 20.—A crisis in the

quarrel on the so-called French shore of Newfoundland will apparently soon be reached.

Maddened by the action of the English Government and the increasing incursions of the French, the unfortunate fishermen of the West Coast are banding together to maintain their rights.

Under the modus vivendi recently arrived at between the British and French Governments,

either country are invested with jurisdiction over the fishermen on the French shore, and

It is claimed that the French are taking advantage of this power to forcibly expel Newfoundlanders from their own bays and harbors.

Her Majesty's sloop-of-war Emerald has

been ordered to the spot. The general feeling is that while the confiscation may not in itself precipitate a conflict between the islanders and their oppressors, it represents the first link in the chain of aggressions on the part of the French that must ultimately end in an appeal to arms.

an accident occurred to the steamship
La Gascogne, which arrived here from

New York to-day, creating a great sensation on board. The vessel was steaming at half speed off the Sicily Islands in a dense fog. Suddenly the fog lifted and an immense rock was sighted only a few yards ahead. The engines were reversed and backed at full speed and the ship struck the rock with only slight damage. The sudden lifting of the fog undoubtedly saved the ship from being wrecked.

A FOOLHARDY LEAP.

Tom Sheehan Jumps from a Bridge Sixty Feet High and Dies.

AMSTERDAM, N. Y., May 26.—Thomas Sheehan, aged 22, was drowned this morning. Sheehan, with two other young men, was crossing the bridge over the Mohawk River at 11 o'clock this morning. When near the centre of the bridge, one of the young men dared Sheehan to jump, saying that he would not. Sheehan then deliberately pulled off his coat

young man did not think the two were serious. Sheeshan mounted the railing and

jumped into the river, sixty feet below. The other young man did not follow, and other people who witnessed Sheehan's act hastened to help him. He rose to the surface and swam a short distance towards the south shore, but was apparently overcome by cramps and sank. The men at once dragged the river, but Sheehan's body has not yet been found. He was well known here and

is said, and that made him tremble.
